Computer Science Student

📞 99159 45038 @ 160250013@ggi.ac.in 🔗 linkedin.com/in/sailesh-kumar-49a93932b/
📍 Ludhiana, Punjab 141016

SUMMARY

I am a dedicated Computer Science student with hands-on experience in cybersecurity and data structures. Throughout my internships, I have developed strong problem-solving skills and a robust foundation in secure API testing and algorithm efficiency. I continually seek opportunities to enhance my technical capabilities while contributing to impactful projects

EXPERIENCE

Cybersecurity Api Testing Intern

Xpro

📅 11/2025 - 01/2026 📍 Ludhiana, Punjab

Cybersecurity firm focusing on securing application interfaces

- Secured APIs by testing endpoints with Postman and Burp Suite, reducing potential vulnerabilities
- Validated authentication mechanisms by performing access control testing, improving data security
- Identified security flaws by analyzing inputs and API responses, strengthening application protection
- Applied cybersecurity practices by executing API security tests, ensuring safer and more reliable systems

Data Structure & Algorithms Intern

RCPL

📅 05/2025 - 07/2025 📍 Ludhiana, Punjab

Technology firm specializing in Data Structures and Algorithms

- Improved problem-solving skills by implementing core data structures such as arrays, linked lists, stacks, and trees during a DSA internship at RCPL, leading to more structured and efficient solutions
- Increased coding speed and logical thinking by tackling algorithmic challenges involving sorting, searching, and recursion, resulting in optimized and cleaner code
- Developed a strong understanding of algorithm efficiency by evaluating and refining time and space complexity, leading to high-performance solutions

EDUCATION

Bachelor of Technology

Gulzar Group of Institution

📅 08/2023 - 05/2027 📍 Khanna, Punjab

Higher Secondary

Government Senior Secondary School (Multipurpose)

📅 04/2021 - 04/2022 📍 Ludhiana, Punjab

Secondary

S.S.N Senior Secondary School

📅 04/2019 - 04/2020 📍 Ludhiana, Punjab

SKILLS

GitHub

Cybersecurity

Postman

Burp Suite

Data Structures

CoreData

DNS

C/C++

Python

HTML

CSS

JavaScript

Tailwind

React

Node.js

Git

Responsive Web

PROJECTS

Campus Centric Internship and Placement Portal

📅 01/2026 - 02/2026 📍 Ludhiana, Punjab

A web application designed to assist students in finding internships and job placements

- Developed a campus placement portal by building a full-stack web application, enabling students to explore internships and job opportunities efficiently
- Streamlined recruitment process by implementing features like student registration, job listings, and application tracking, improving user experience
- Enhanced system performance by designing responsive UI and optimized backend logic, ensuring smooth and fast interactions
- Strengthened data management by integrating database operations for storing student and recruiter information, improving accessibility and organization

Detection of Hidden Data Exploration via DNS

📅 12/2025 - 01/2026 📍 Ludhiana, Punjab

A project focusing on threat detection in DNS traffic to enhance network security

- Detected covert data transfer by analyzing DNS traffic patterns, improving network security monitoring
- Identified hidden data exfiltration by examining DNS queries and anomalies, reducing potential security risks
- Enhanced threat detection capability by implementing techniques to track suspicious DNS behavior, strengthening system defense
- Improved cybersecurity analysis skills by exploring DNS-based data hiding methods, ensuring better protection against attacks
